

# The HIRC Transparency Badge - Supplier

A Healthcare Standard for Supply-Chain Transparency

---

## Why It Matters to Suppliers

More than 40 healthcare systems reference the HIRC Transparency Badge in their RFPs.

Participation positions suppliers advantageously in sourcing discussions by signaling structured, governance-ready transparency.

---

## What the Badge Recognizes

The Transparency Badge indicates that a supplier has shared:

- Manufacturing-site geography
- Structured resiliency diagnostics

Through HIRC in a standardized, supplier-controlled format.

---

## How to Participate — Suppliers

1. Submit standardized transparency information
2. Manage access permissions through the HIRC Vault
3. Receive the Transparency Badge as a recognized transparency signal

---

## What It Delivers

Participation enables suppliers to:

- Respond more efficiently to RFP transparency expectations
- Reduce bespoke customer questionnaires
- Share information once in a reusable format
- Maintain full control over access permissions

**The result:** competitive positioning without expanding scope or transferring data ownership.
